

Egg Rocket

The aim: To throw an egg 10 metres and make sure it survives.

The Task: Use whatever you can, (ask for permission first) to create a vehicle that will keep your egg safe while being transported through the air.

The restrictions:

- You can only use what you are given permission to use.
- The egg must always be visible
- You cannot boil the egg.
- You must throw the rocket containing your egg through the air for at least 10 metres.
